Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

TAROT DECODED: UNDERSTANDING AND USING DIGNITIES AND CORRESPONDENCES

Weiser, U S A, 2005. Soft cover. Book Condition: New New. 1st Edition. "Tarot Decoded presents original and welcome methods of synthesizing tarot and astrology. It is a book for which the time has definitely come. With techniques and exercises, some based on metaphysical writings a century old, and others that are all her own, Elizabeth Hazel integrates the two pursuits in innovative and exciting ways. If you, like myself, are a person passionate about both tarot and astrology, you have probably read numerous top-notch astrology books as well as many excellent books on the tarot, but have found a dearth of material combining the two subjects. This book is the first step unabashed into that void and to provide many thought-provoking avenues for a successful and rewarding integration of the two arcane sciences.
