Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The Psychology of Climate Change is an emerging field that focuses on human causes and impacts. The APA (2009) report noted a developed-nations bias in the current body of research. I add that there is also a continental bias. The current study explores the cultural impacts of climate change in Tuvalu, a developing island nation in the South Pacific projected to become uninhabitable in the next 50 to 100 years due to sea level rise. This study explores the Psychological Sense of Community and Sense of Place in Tuvalu's cultures, and applies Activity Settings theory to Tuvaluan cultural contexts and change. This study utilizes semi-structured qualitative interviews, ethnography, photographic images, and archival research. This research was conducted in collaboration with the Tuvalu Office of Community Affairs. Thematic analysis revealed that climate change is considered within the context of other cultural changes that Tuvaluans are facing. Tuvalu has a strong guest and gift culture, including a responsibility of community members to share resources and give of themselves by participating in community-supporting events. Tuvaluan identity is strongly related to...
