Introduction Conversations are occasions where participants are given the opportunity to give and take by making contributions and by allowing others to take turns. Turn-taking concerns the me and you level of communicative interaction and examines how speakers share the floor in conversation. Every time, there is interaction, the mechanisms of how turns are taken are involved automatically. In conversations where turns between the participants are exchanged smoothly, and where speakers share similar or the same turn-taking patterns, communication is successful and allows the development of a topic. Disturbances in the flow of communication are likely to arise when there is disagreement in the turn-taking systems employed by speakers that may have different assumptions in regards to which linguistic behaviour is appropriate in conversation. Not later than John Gray we know that men are from Mars and...
